LOCAL MATTERS.

DECORATION OF GRAVES .- Saturday next, the 29th of May, has been selected as the day for the annual decoration of the graves of the soldiers of the Confederate States, who are buried in the cometeries here. The prisoners of war whose remains were buried in the U. S. Military Cemetery were last year transterred to the historic ground of Christ Church, and rest there together under a green mound at the head of Cameron street, "with all their country's wishes blest." It is proposed that the decoration shall not be a formal one, that no procession shall move nor oration be delivered; but that whosoever choses shall east flowers upon the mound at Christ Church and the graves in the various cometeries-a silent and heart f is tribute to the gallant men who gave their lives for the Confederate cause.

Penn and others, after which a "long role" of the memhers was called; and with but few exceptions the answers were "all right." R freshments, free to all, consisting of lemonade and cake, were tien saivel. O her remarks were mide advis ing all present to remember the plodge to day, after which the meeting adjourned.

FISHTOWN .- The offices of the figh agents and all the booth; at Fishtown have closed up and things there to day were as dull as they well could be, clearly indicating that the fish cason of 1880 is at an end. There were no shad or beiring there either yesterday or to day, and the only business transacted on the whar! is the buying and selling of sturgeon, which are striving quite freely. Twen'y arrived yester-day and ten to day, selling at from 50 to 75c s. artice, which is considered very low.

A COCKING MAIN was fought Tuesday at the chain bridge between Maryland birds from Edimore county and Dirries birds, assisted of some belonging to Mr. Webb Maddex, of than quier county. There were nine fights, of when the District and Virginia birds won six and the Baltimores three. About \$2,000 changed hands. Quite a large crowd was pres eat, and all sorts of gambling, from three eard monie to fare, was the order of the day.

REPUBLICAN MEETING.—The Young Men's republican club held a meeting at the colored Old Fellows' Hell, on Columbus street last night, with Mr. I. C. O'Neal in the chair and Gray M. Chiff. I. C. O'Neal in the chair and Mr. Pandleton submitted a resolution youngst.

Geo. M. Griffio, scoretary.

A list of the members of the club was read by the secretary, and among the names were George Liycook, Norman Davis and J. P. Rodier, who tad been enrolled the night pre-

A motion was made and carried that the list be published in some weekly or daily paper.
W. A. Carter moved that the names of all persons on the list, who are candidates for office on the readjuster ticket, or who are on any of the various committees of the rearjuster

parly, be stricken cff.

A. W. Harris, said that it would seem very strange for the republican party of Alexacdria to read out of its ranks men who had acted with a party that had put a republican judge on the bench; a judge who had (xempted, according to funder authority, a large number of dis abled colcred men from the payment of their capitation tax, when the same republican party had admitted within its fold General Longstreet and General Wickham. Even the great Logan, whose republicanism could not be denied, had been charged with raising a regiment in his State to help bind the shackles upon him and his race, and the man who it was expected would lead the party to victory in the coming He also stated (not in this connection) that the card announcing him, Harris, for Common-will be paid. wealth's Attorney, had been published by some

one without his knowledge or consent. The motion to strike from the list all those

who had seted with the readjuster party, was, on motion of A. W. Harris, laid on the table, II. II. Harris then arose to a personal explanation. He said the charge that he had stumped Charles county, Md , for Tilden, made by an enemy of the republican party, was false and he harled the lie in the teeth of him who made it. It was true that he had supported Dr. Henkle, the man who delivered the address welcome before the medical class of the Howard University, for Congress, notwithstanding his name happened to be on the democratic ticket in perference to Dr. Laneaster, who professed to be a republican, but who had stated that he would never recognize a colored man as a professional brother. When the contest was narrowed down to two men, one a false friend and the other an open enemy, he would always choose the open enemy, as the lesser of the two evils, whether it be in Charles county or any-

A motion was made to endorse A. W. Arm strong for City Sergeant, but Mr. Armstrong stated that, while he desired the support of the republican party, he did not wish an endorse-

The motion was then withdrawn. A committee of live was appointed to su-perintend the printing of the list of membership, as follows: T. I. Taucil. J. M. Buckner, W. A. Carter, George A. Griffin, and Charles Scals. The meeting then adjourned.

THE ELECTION TO-DAY .- The excitement of the past two weeks seems to have cooled down a lind, and the election to day for Common wealth's Attorney, Commissioner of the Reve-

one, City Sergeant, and Magistrates and Conttables is progressing quietly, but nevertheless earnestly. There is considerable interest manifested as to the result, but the ballot being a scorot one, of course, that will not be known until the

colored republicions. It is though by many that the ries will be between Downey and Smith, with the odds in favor of the latter. Duffey is certain, but the contest between Brent and Payne will be cless, although it is predicted that Brent will come out ahead. The red libbion bucket if ier water occupi d a conspicious posi tion at each of the voting plac s. and there is but little doubt that the temperance question has had o nsiderable it fluores in the election to day. Oa motion of Mr. Kirkwood the bill was taken up and passed author zing the postmaster general to treat the mail service between East St. Louis and St. Louis as other than railway service and let it to the lowest bidder. It was explained that the cost of the three mile long bridge and funnel connecting the railways centering at St. Louis was \$15 000 000. The department can only pay \$300 per mile for railway servic'. The amount though adequate for roads costing about \$25,000 per mile is in-

He was proeceding to speak in support of his substitute when the morning hour expired.

Mr. Bayard moved to lay sside all price orders and continue discussion of the tariff bill. Mr. Windom desired the agricultural appro-priation bill to be taken up, but upon Mr. Bayard's statement that the tariff bill would prob-ably be disposed of in a short time he withheld

VITIATED TASTES .- In certain portions of the East Indies one of the ennobing past times of both potentate and peasant is to witness what they call a gladiatorial combat between two natives, whose humanity has so degenerated as to place them very slightly above the brute crea-tion. With their first encased in steel from which fearful looking iron horns protrude, and their bodies in a nude condition, they deal their deadly blows until one or both fall to rise no more. Another less dangerous method of furnishing amusement for this stunid people two men, perfectly naked, to light each other with cowhides. Armed with those terrible in-lictors of corporal torture, at a given signal they commence their work. It is regarded as unmanly to grean, flinch or wince during the combat, and these brutes in human form lash each other until one or the other falls, when the combat is declared by the umpire at an end. This last "past time" may be regarded by affected humanitarians as a custom the like of which car only be found in nations sunk in heathenism but certainly those who patronize and interest themselves in the brutal puglistic matches of this country—where the human physiognomy is marred—sometimes with fatal effect—that dial of the soul, created in the image of the mighty Blohim-are in reality no better than the setti-Brahmin. In connection with this subject it may be stated that in order to cater to the depraved tastes of numbers of its roaders the N.Y. Herald contained a three quarter of a column telegraphic account of a cock light which took place near the Chain Bridge a few days ago.
